BRIGHT STYLE THANKS TO THE ATTRACTIVE
UNIQUE OF THE REFLECTIONS OF LIGHT

CLASSIC GLOSS

Brightness is one of the most important things in architecture. Light works as a structural resource but also as an aesthetic one, giving personality to every space with its contrast game and the sensations that it causes.

Our range of gloss coating finishes boosts luminosity to its maximum, giving this metal its most classical style, without renouncing to the magnetism that its shiny surface provides.

THE PERFECT BALANCE BETWEEN
APPEARANCE AND PERFORMANCE

ELEGANT MATT

Architectural trends show a style where simplicity is a key, making sobriety remain as a constant in design.

Our range of matt coating finishes gives a discreet appearance, but distinguished, perfect for creating elegant spaces in which aluminium windows and doors give the importance to other elements.

A SUBTLE AND SILKY GLOSS

SOFT SATIN

A delicate and visually pleasing appearance due to the subtle and silky gloss of the paint.

This soft-touch finish, between gloss and matt, is a must for places with low natural light. By choosing satin finish to your windows you will help to improve ambient lighting thanks to its silky appearance that reflects light slightly.
